22.09.2016	RUS	Russian armed forces have struck the Field Operations Room in Aleppo, supposedly manned by intelligence officers of the USA, UK, Israel, Turkey, Saudi Arabia and Qatar. 23.09.2016	CZE	Brussels has double standards since the situation with Crimea and Sevastopol is the same as it was in the case of Kosovo, but the EU behaves differently in this case.	<a href="http://bit.ly/2czQovc">http://bit.ly/2czQovc</a>	Parlamentni Listy	The two cases cannot be compared. In Kosovo, there was a war with thousands of casualties and hundreds of thousands of refugees, which the Western countries stopped. There was no war in Ukraine until the Russian military aggression began. Furthermore, the EU Council, back in 2008, specifically stressed that in view of the conflict of the 1990s and the extended period of international administration under SCR 1244, Kosovo constitutes a sui generis case which does not call into question these principles and resolutions. As regards Kosovo's independence, the EU Council has underlined the EU's adherence to the principles of the UN Charter and the Helsinki Final Act, inter alia the principles of sovereignty and territorial integrity and all UN Security Council resolutions. 23.09.2016	RUS	Evidence suggests that the Ukrainian armed forces are using biological weapons in Mariupol. Mice fleeing from corn fields and dying en masse suggests that the fields have been poisoned and that the resulting products - sunflower oil, or animal fodder - will end up poisoning consumers. Since the Ukrainian army is stationed nearby, it might just be that it is poisoning its own citizens in order to blame its enemies, as it doesn't care about how many die.	<a href="http://bit.ly/2dD0sn6">http://bit.ly/2dD0sn6</a>	amdnews	Conspiracy theory. 25.09.2016	CZE	Polish MEP Janusz Korwin-Mikke draws attention to the threat of the outbreak of a third world war. As a proof of the impending war, he points out the US debt, which he thinks is similar to the German national debt before World War II. He also points out the announcement of the alliance between China and Russia against NATO, the declaration of Slovak Prime Minister that within a month the third world war should break out, or the fact that that Russian propaganda is getting stronger.	<a href="http://bit.ly/2cKTxs0">http://bit.ly/2cKTxs0</a>	<a href="http://prvnizpravy.cz">prvnizpravy.cz</a>	The "evidence" does not prove anything. 25.09.2016	RUS	After Ukraine restores its control over Donbass, Kyiv will resort to mass murders of Russians, Poles, and Jews in the area - because the Ukrainian government has proclaimed itself the heir of fascists.	<a href="http://bit.ly/2cKNvrs">http://bit.ly/2cKNvrs</a>	Voskresnyi vecher s Vladimirom Solovyovym @ Rossia 1 (time: 02:26:09)	Extremists and provocateurs, to whom Russian media devote much attention, are indeed one of the threats faced across the country but they constitute a very small minority. The vast majority of Ukrainians want peace, stability and democracy, as witnessed by the democratic and inclusive Presidential elections held on 25 May 2014. This was reconfirmed by the parliamentary elections of 26 October 2014, where parties devoted to democratic values received the broad majority of votes. The far-right Right Sector (often depicted as "fascists" by pro-Kremlin outlets) gained only 1,8% of the votes, far short of the threshold needed to enter the parliament. Ukraine's electorate clearly voted for unity and moderation, not separatism or extremism, and the composition of the parliament reflects that ( <a href="http://bit.ly/1Tdu8Qw">http://bit.ly/1Tdu8Qw</a> ) // There were no credible reports of any ethnic Russians being threatened in Ukraine; only allegations perpetuated by pro-Kremlin outlets. 26.09.2016	RUS	The Eurovision 2017 song contest that is to take place in Kyiv will be a Satanic ritual symbolising the destruction of the common Russian and Ukrainian history as a single nation. 28.09.2016	CZE	The MH17 was guided by the UA air traffic controllers above Donbas. The Ukrainians didn't provide their radar data, and the Russian ones don't contain any sign of a missile, however because of the limited reach of the radar, it should still be possible that the Boeing was shot down by UA fighter planes that might have been approaching from the west. The claims by the Dutch investigators on the fatal cause of the disaster being surface-to-air rocket is therefore false. The truth will never be known, and that's because the US and its puppet Ukraine are concealing crucial information.
